Subject: Re: Gordon Creek 2, 7, and 8 Water Monitoring

Chris,

I have uploaded all of the information for Gordon Creek 2, 7, & 8 from the pipeline into the database. A report is attached.

It looks like you have included all required samples and parameters.

Please let me know if you have any questions.

Thank you,

Dana Dean, P.E.

Pam:

I have successfully uploaded the 1st quarter 2005 water monitoring data for Gordon Creek 2, 7, and 8 Mines to the EDI. Because of the abundant snow cover this year, only flows at station 2-2-W were measured. All other sites were either not flowing, snow covered, or were just ice in the bottom of the drainage. However, during the second quarter of 2005, measurable flow was monitored at three of the sites. Considering how long it has been since measurable flows have occurred at this site, this is good news.

Chris
